This girl has that V8 pedigree from start to finish we start with her sire Mr. V8 604 /7 "Man of Steel" who was the 2017 Grand Champion Bull at Houston and V8 Ranch's 2017 Bull of the Year. Powerful, exceptional Performance and Superior Style, not to mention being backed by two of the greatest cow families in Brahman history. This all comes together to make Mr. V8 604/7 the epitome of a V8 Brahman bull. He is a bull that perfectly combines the size, bone, length and muscle of Mr. V8 191/7 and the Style and productivity of his 380/6 sired dam. He had the second heaviest weaning weight (710 lbs) and achieved heaviest yearling weight (1181 lbs) of the 2014 spring calf crop. His offspring exhibit the same extended and clean front end, bold and open rib cage, with expressive loin shape and width from stifle to stifle as he does. 604/7 is a truly remarkable bull that has had the rare ability to have massive size, bone and muscle while maintaining perfect hoof shape and clean joints. Not only does he take top honors in the show ring but his data prove well with a top 1% ranking for WW, YW, CWT and REA, the dam to Miss JH 005/8 also has that V8 Ranch pedigree starting with +Mr. V8 901/4 who was the 1998 International Champion Bull. If you asked any elite Brahman breeder worldwide, chances are they would say that during the course of the last 15 years, they've had success using +Mr. V8 901/4. The reason 901 works so well is because he is a light birth weight sire and one of the most eye appealing, structurally correct sires in the breed. Consistency is his best quality. His offspring are easy fleshing, good-doing cattle that are very merchandise-able. +Mr. V8 901/4 daughters make great cows that work well with many different sire lines. Even today, there are numerous 901 offspring in the V8 show string and on the ABBA show circuit with other breeders because of his dependability. He is the sire of the 2013 International Champion Female and 2013 All American Champion Female, as well as numerous other recent show winners. She will be bred 3 months to our Avery son Mr. V8 554 for more info visit www.southernbrahman.com

ABBA # 969476 | Haltered Heifer | July 2, 2018

Halter Broke Show Heifer. Lee's Cattle Co. is very proud to offer this top of the line show heifer to the Southern Brahman Classic and F-1 Sale. They don't come any gentler than Lee's Miss Anna. This female has been successfully shown by Preston Welch throughout the past year and a half and has had nothing but success with her having such a gentle disposition. We promise you that when you get this heifer home that she will be your all time favorite! We struggled to offer this great one to the public, but we wanted to offer our best. Her pedigree is outstandingly remarkable combining some of the outstanding genetics of Florida as well as North Carolina. We bought this heifers dam from Terry McPherson and to this day she is one of our leading donor cows. To top the deal off Anna is bred 30 days to JDH Mr. Greer Manso an own son of the +JDH Charley's Jazz 946/1 bull. If you're looking for a female that you can run the roads with still, win many shows, and make an outstanding donor cow then this is your chance. Lee's Cattle reserves the right to one IVF procedure after her first natural calf is born at their expense.

This heifer is definitely one that can add length to your herd. She has a great hump and can bring a lot of curb appeal. Her father is a V8 191 son that is very pigmented and appears she will be as well. This heifer will get deeper as she matures. Has been exposed 60 days to a registered Brahman Bull.

This first Heifer consigned by Wooten Farms (16/8) is a V8 191 granddaughter. She is a deep bodied, fleshy heifer that is super feminine. Very nice Heifer with good muscle, plenty of bone and easy to handle. She has been exposed for 60 days to a registered Brahman bull.
