

International Show Brahman History

(1982-2023)

1932 Grand Champion Dutchess 478
*Monarca X Miss Jeremias 14TH

El primer Houston Livestock Show se celebró en 1932 y la primera Gran Campeona fue la Dutchess 478, propiedad y exhibido por J.D. Hudgins.

La primera vez que Houston Livestock Show organizó la Exposición Nacional de la ABBA fue en 1967, que fue la décima Exposición Nacional anual. El Houston Livestock

Show fue sede del Salón Nacional seis veces más a lo largo de los años, siendo 1981 la última vez que Houston fue el ABBA National.

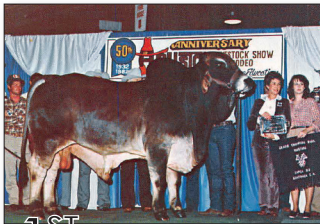

1982 fue la primera vez que la ABBA celebró su exposición

To the best of our ability we list owners who either owned the animal at the time of the show or who own the animal now. Progeny count does not include internationally registered progeny.

internacional en el Houston Livestock Show. La Vaca Gran Campeona en esa primera exposición internacional, celebrada en el Houston Stock Show medio siglo después, fue otra hembra exhibida por J.D. Hudgins, JDH MISS NANCY MANSO 312/2.

El primer Congreso Mundial Brahman que se celebró en Estados Unidos fue en 1984. Estados Unidos es el país anfitrión del Congreso Mundial Brahman 2024, 40 años después de que se celebrara junto con la Exposición Internacional de la ABBA.

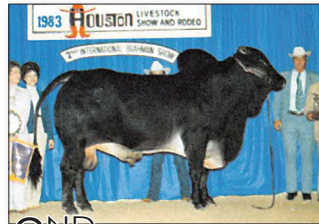

Las siguientes páginas tienen los grandes campeones, sus prefijos de premios, nombres, padres, madres, propietario en el momento del espectáculo o propietario actual y el número de progenie registrada por la ABBA que eventualmente produjeron. También tenemos algunas estadísticas y datos interesantes al final de este artículo.

Note: Some of the International Champions were multiple owned and the above calculations were tabulated awarding one championship per individual ranch, owner or exhibitor basis. We calculated all of this data to the best of our ability. We looked at current ABBA ownership as well as ownership at the time of the show. We used data from early editions of The Brahman Journal magazine to calculate all of this data. These pages are for your enjoyment only and are not official ABBA calculations.
